Why choose to charter?

Aircraft charter offers you an array of benefits, including:

- 1 The flexibility to fly to your own schedule, with an Account Manager looking after all the details.
- 2 Access to more airports closer to your destinations through our global network.
- 3 Personalised service that works with your budget to provide aircraft options.
- 4 All of your flights are supported by our 24/7 operations team.
- 5 Bespoke branding options, to make your journey a memorable occasion.

How we can help.

Our air charter experts bring a wealth of opportunity for making the most of each and every trip.

CUSTOMISE YOUR FLIGHTS

Whether you're on location for short periods or require transportation to multiple destinations, we work closely with you to deliver your exact requirements. From the moment you arrive at the airport we can provide a tailor-made and branded experience.

A private airport terminal, access to remote locations and transporting hold luggage plus additional production equipment are a few options we can explore to meet your needs. Bespoke catering with your choice of menu and drinks can be arranged in the lounge or on board the aircraft.

COORDINATE YOUR TIMINGS

Timing is everything, especially when planning for large groups. Whether it's a quick trip or a series of flights over an extended period, you can rely on our skilled logistics.

Often we assist companies with complex travel arrangements where groups may be coming from multiple destinations to arrive at the same time.

Case study.

On behalf of a well-known TV series, we flew the production team and cast for the filming of a new season.

- London – Mallorca
- Utilised a private terminal at London Stansted as discretion was a key priority
- Lounge catering was arranged at the private terminal for guests upon arrival
- Boeing 737-800 (189 seats) was utilised for 80 passengers to enhance passenger comfort and allow increased luggage allowance, with equipment included
- Customs was pre-arranged to sign-off a carnet for the smooth transport of the equipment
- Air Partner representative oversaw all aspects of the charter to provide support to our client.

Safety and permissions.

Ensure you work with an experienced, reliable partner who is trusted within the industry.

SAFETY

We continue to set the benchmark for safety in aviation which is why our Quality Management System far exceeds industry standards.

AIRCRAFT COMPLIANCE

Safety is of the utmost importance and ensuring your aircraft and crew are compliant with regulations is key. Air Partner's Compliance Department check all documents and insurance for each carrier.

Two pilots, two engines is a critical element of our procurement.

In-house Ops: 24/7/365.

Available round the clock for requests and support, our dedicated in-house Operations team are a valuable extension to every charter we arrange, which is unrivalled in the industry.

FLIGHT WATCH & MOVEMENTS

The team provides live departure and arrival messages directly to our customers on every flight.

MONITORING & SUPPORTING

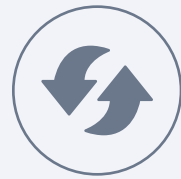

Our highly experienced Aviation Support Specialists monitor all aspects of your flight including weather, slots, permits and industrial action. Should an unexpected issue arise, our aim is to know about this ahead of time to react proactively.

Taking responsibility.

Environmental concerns continue to present a significant challenge for the aviation industry and, as a business, we are on a journey to reduce our emissions through our Environmental, Social and Governance (ESG) Strategy.

As such, for every flight you book with us, offsetting your carbon emissions is automatically included to allow for you or your business to reduce harm caused by flying.

Working with Climate and Sustainable Development experts Climate Impact Partners, with every flight booked with us, your emissions are offset and the funding is used to support projects that not only cut carbon, but also alleviate poverty and improve lives.

We know that our customers are increasingly aware of climate change, many of whom are being more mindful of their impact on their environment, and about when and how often they travel, whether for business or leisure.

The projects being supported have been selected to provide a combination of the highest quality emission reductions, whilst also delivering the most sustainable impact.

How it works.

1

WHEN YOU BOOK YOUR FLIGHT

With every flight you book with us, offsetting your carbon emissions is included, to allow for you or your business to give back to the planet.

2

WE'LL DO THE CALCULATION

Your dedicated Account Manager will calculate the emissions based on the variables of your flight – the duration and the aircraft category.

3

SEAMLESS PAYMENT

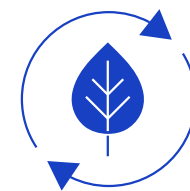

Your carbon offsetting payment is included in the cost of your flight. This will be listed as "Carbon Offsetting".

4

YOU'RE READY TO OFFSET

Climate Impact Partners will then offset these emissions through projects that cut carbon and improve lives.
