Air Partner continues to strengthen global presence as it opens new offices in Houston, United States, and Singapore

Air Partner plc, the global aviation services group, is pleased to announce the opening of two new offices in Houston, Texas, U.S., and Singapore, as it further extends its global reach to serve the needs of its international customer base.

Located in the Woodlands area of the city, the new Houston office opened its doors in mid-February, further solidifying Air Partner's presence in key markets across the United States. The company currently has offices located in Fort Lauderdale, New York City, Washington, D.C. and Los Angeles, with the latter recently opened in 2018.

Houston is one of the fastest-growing major cities in the United States and offers a wealth of opportunities: for example, the Port of Houston leads the nation in break bulk cargo and is a top foreign trade zone, which will help Air Partner further extend its thriving large freight division. Furthermore, the company will also now be in closer proximity to Houston's "oil cluster," helping it to take more share of the Oil & Gas industry in the region.

The new Singapore office opened in February, with a particular focus on Air Partner's market-leading Freight and Remarketing services. The Freight team has already grown its headcount there with the recent appointment of Oscar Thwin as Asia Pacific Vice President of Freight, who will be responsible for growing Air Partner's cargo offering in the region.

Air Partner has had a presence in Singapore since 2015, but is now sharpening its focus on growing its share of the Asia Pacific market, in line with its strategy to expand its geographical footprint beyond its more established markets.

Commenting on the new office openings, Mark Briffa, CEO of Air Partner plc, said: *"The extension of our international office network further supports our long-term growth strategy. I am very pleased to be building on our existing success in the United States by expanding our presence in the country, as well as opening a new office in Singapore. We are always looking to extend our reach and services across the globe to meet our customers' diverse aviation needs, and both Houston and Singapore are thriving economic centres with huge potential. We look forward to supporting established and new customers from our recently opened offices."*

About Air Partner:

Founded in 1961, Air Partner is a global aviation services group that provides worldwide solutions to industry, commerce, governments and private individuals. The Group has two divisions: Charter division, comprising air charter broking and remarketing; and the Consulting & Training division, comprising the aviation safety consultancies, Baines Simmons, Clockwork Research and SafeSkys, as well as Air Partner's Emergency Planning Division. For reporting purposes, the Group is structured into four divisions: Commercial Jets, Private Jets, Freight (Charter) and Consulting & Training (Baines Simmons, Clockwork Research, SafeSkys and Air Partner's Emergency Planning Division). The Commercial Jet division charters large airliners to move groups of any size. Air Partner Remarketing, which is within the Commercial Jet division, provides comprehensive remarketing programmes for all

types of commercial and corporate aircraft to a wide range of international clients. Private Jets offers the Company's unique pre-paid JetCard scheme and on-demand charter. Freight charters aircraft of every size to fly almost any cargo anywhere, at any time. Baines Simmons is a world leader in aviation safety consulting specialising in aviation regulation, compliance and safety management. Clockwork Research is a leading fatigue risk management consultancy. SafeSkys is a leading Air Traffic Control and Environmental services provider to UK and International airports. Air Partner is headquartered alongside Gatwick airport in the UK. Air Partner operates 24/7 year-round and has 20 offices globally. Air Partner is listed on the London Stock Exchange (AIR) and is ISO 9001:2015 compliant for commercial airline and private jet solutions worldwide. www.airpartner.com
